

CountEasy "the most efficient way for counting tills"

The CountEasy is known for its simple operation and reliability. You will be amazed at how easily and quickly a cash drawer can be counted.

The display shows the selected denomination in number and in value. The CountEasy automatically jumps to the next type after each cut. Also the totalization of the count goes automatically.

The CountEasy is much cheaper in purchasing and maintenance compared to conventional counting systems. In addition, the CountEasy money-weighing system works very quickly and efficiently and is easier to use when you think.

Carefree Cashmanagement? Moneytronic CountEasy!
