

## Keypad Cashbox

The Keypad Cashbox provides optimal security, thanks to the preset opening after 1 to 99 minutes. Also suitable for inserting coins, receipts and coins.

With this system, you no longer need a key to empty the box. With a personal PIN code, the system can be opened and the content can be transported. The solid housing stays in the workplace! The wider opening also makes it possible to deposit not only banknotes but also coins, receipts and other valuable documents.

## Carefree Cashmanagement? Moneytronic Keypad Cashbox
